Hi Sharmel:

Regarding the Adjudication of our Project Manager, from Spatial Front, the adjudication team returned a response instructing GSA to await a final determination, absent a preliminary.

I was advised by HSPD-12 Security that a final determination can take up to - and even exceed - one year. This would not be acceptable in terms of being able to work.

After discussing this matter with Anthony Aderemos, from SFI, I was provided the following applicant's resume as prospective substitution (See Attached). According to the resume, this individual is highly qualified for the position.

With your consent, I would like to proceed with this substitution, as the proposed PM has already received a successful background investigation and is currently working on projects for DOT. This will permit us to get everyone fully on boarded and acclimated to their work as soon as possible.

Respectfully,  
Scott

Robert:

Can you inquire why your background investigation is pending a final disposition?

Thanks,  
Scott
